SOLA

ACOUSTIC PODS

SOLA. transforms open spaces into calm, private work zones—combining acoustic comfort, modern design, and functional simplicity.

BOSQ.ae By BOSQ Ergonomic Living

SOLA is inspired by solitude, light, and clarity.

S — Serenity
A calm space amidst the busy workplace.

O — Open
Privacy within openness.

L — Light
A space that brings clarity and focus.

A — Autonomy
A personal space for your own ideas and flow.

SOLA represents a sense of calm, independence, and balance in the modern workplace. Rooted in the idea of personal space, it transforms the everyday work environment into a quieter, more focused experience.

Designed as an acoustic pod, SOLA creates a private sanctuary within open workspaces—a place where conversations feel effortless, thoughts flow freely, and moments of focus come naturally. It brings together privacy, comfort, and contemporary design to create space for better work.

SOLA
ACOUSTIC PODS

A NEW SPATIAL UNIT

Rooms without walls.

Add privacy, focus and meeting space to an open office in a day.
No construction, and it moves when you do.

Reorganise

Turn an open floor into focus, call and meeting zones.

Call

Private calls, away from the open floor.

Focus

A quiet desk for deep work.

Meet

Team meetings that do not disturb anyone.

THE RANGE

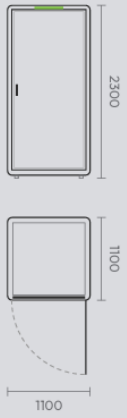

Seven sizes, one family.

From a one-person phone booth to a six-person boardroom.
S · M · L · XL is the footprint; the number is how many people it holds.

Exploded Structure

The entire acoustic pod adopts a modular prefabricated structure, requiring no conventional construction. Pre-manufactured components can be quickly assembled on site.

From the outer frame, acoustic wall panels, interior finishes and glass doors to the top ventilation and noise-reduction components, each element can be flexibly combined, with sizes, finishes and functional modules configured as needed.

Balancing structural stability, sound insulation and a clean minimalist appearance, the system adapts to a wide range of workplace settings, enabling fast installation and flexible adjustment.

MODULAR AQOUSTIC PODS

Concealed Hinge Design

Hinges are integrated into the pod structure for enhanced stability and durability, reducing the risk of accidental impact from exposed hardware.

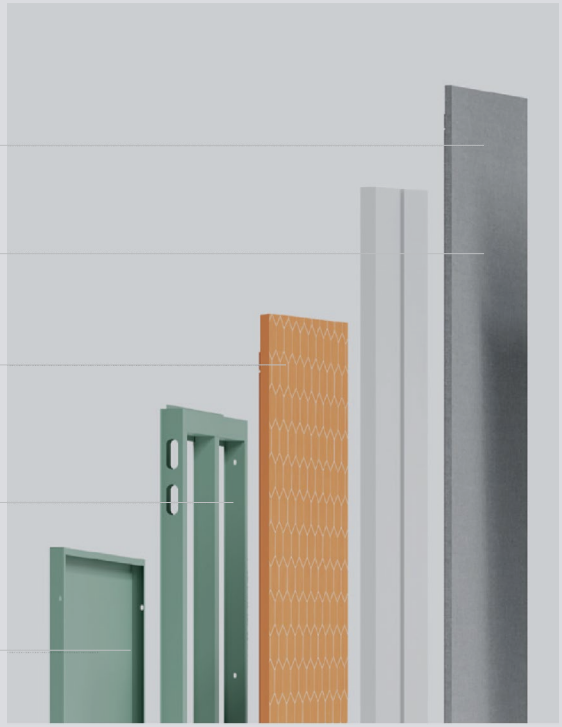

Shock-absorbing Feet & Universal Wheel

Damping material at foot base blocks ground-borne vibration. Elevates cabin to reduce ground contact area. With concealed casters for noise reduction and easy relocation.

Noise Reduction

30 db

Passed level reduction
Class A in ISO 23351
Certification

Double-layer laminated sound insulation glass

Adopts 5mm/6mm tempered laminated glass, which reduces the amplitude effect of the glass and greatly improves sound insulation performance.

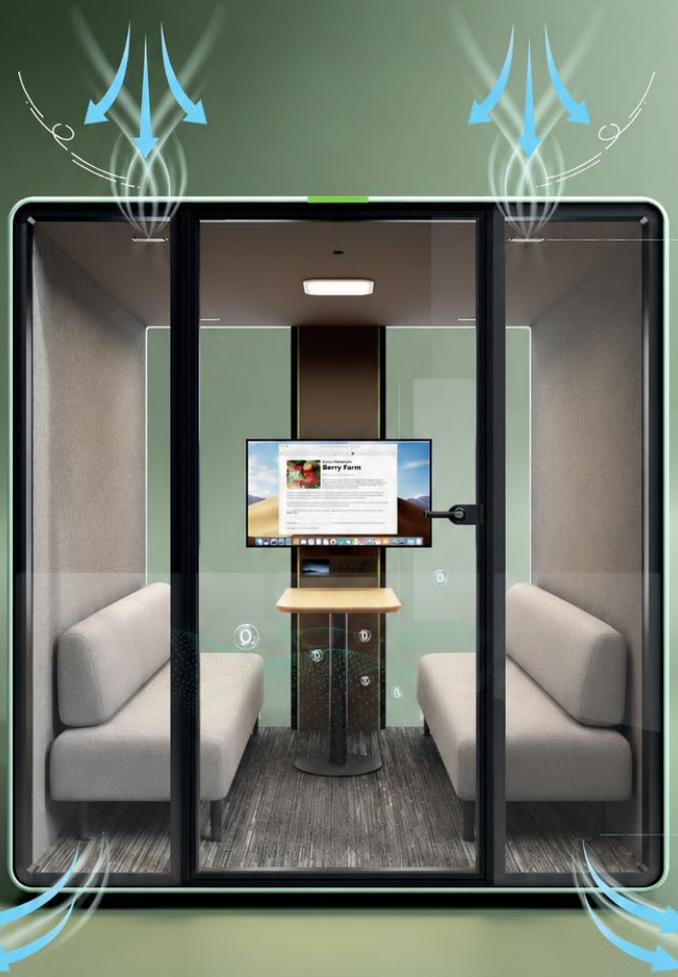

2.35m³/min

AIR-FLOW RATE

Airflow Pattern:
Top-in, bottom-out

Fan Configuration:
Top centrifugal fan, bottom 2000-RPM suction fan

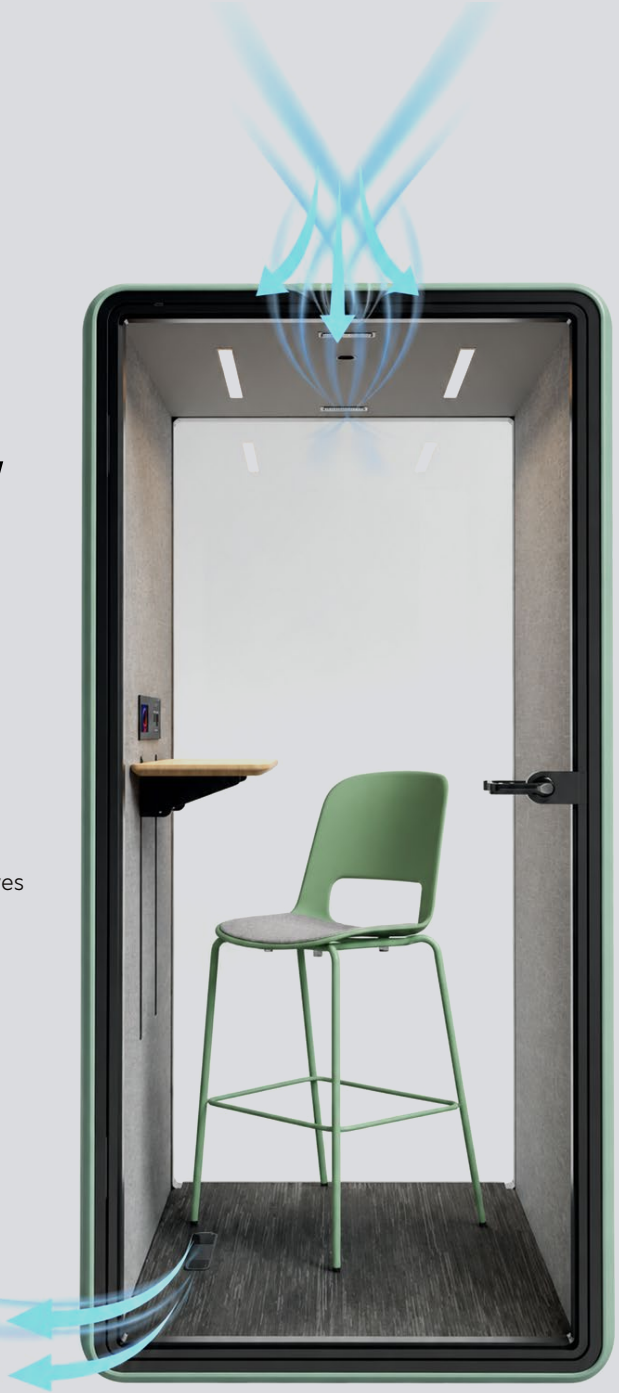

Aroma System (Optional):
Optional refreshing sea-salt, mint, tea scents; replaceable cartridges; relieves fatigue, improves office comfort and concentration.

Air Flow

Refreshing Every Minute

Equipped with a bespoke centrifugal fan and acoustically tuned airflow ducts, the system provides robust ventilation while suppressing disruptive operational noise. The lower air outlet efficiently removes carbon dioxide, which tends to settle close to the floor, maintaining a comfortable breathing environment for prolonged occupancy.

It also supports an automatic air renewal function. When the space is vacant, the system triggers intermittent ventilation cycles. This preserves a dry, pleasant interior environment, always prepared for the next user.

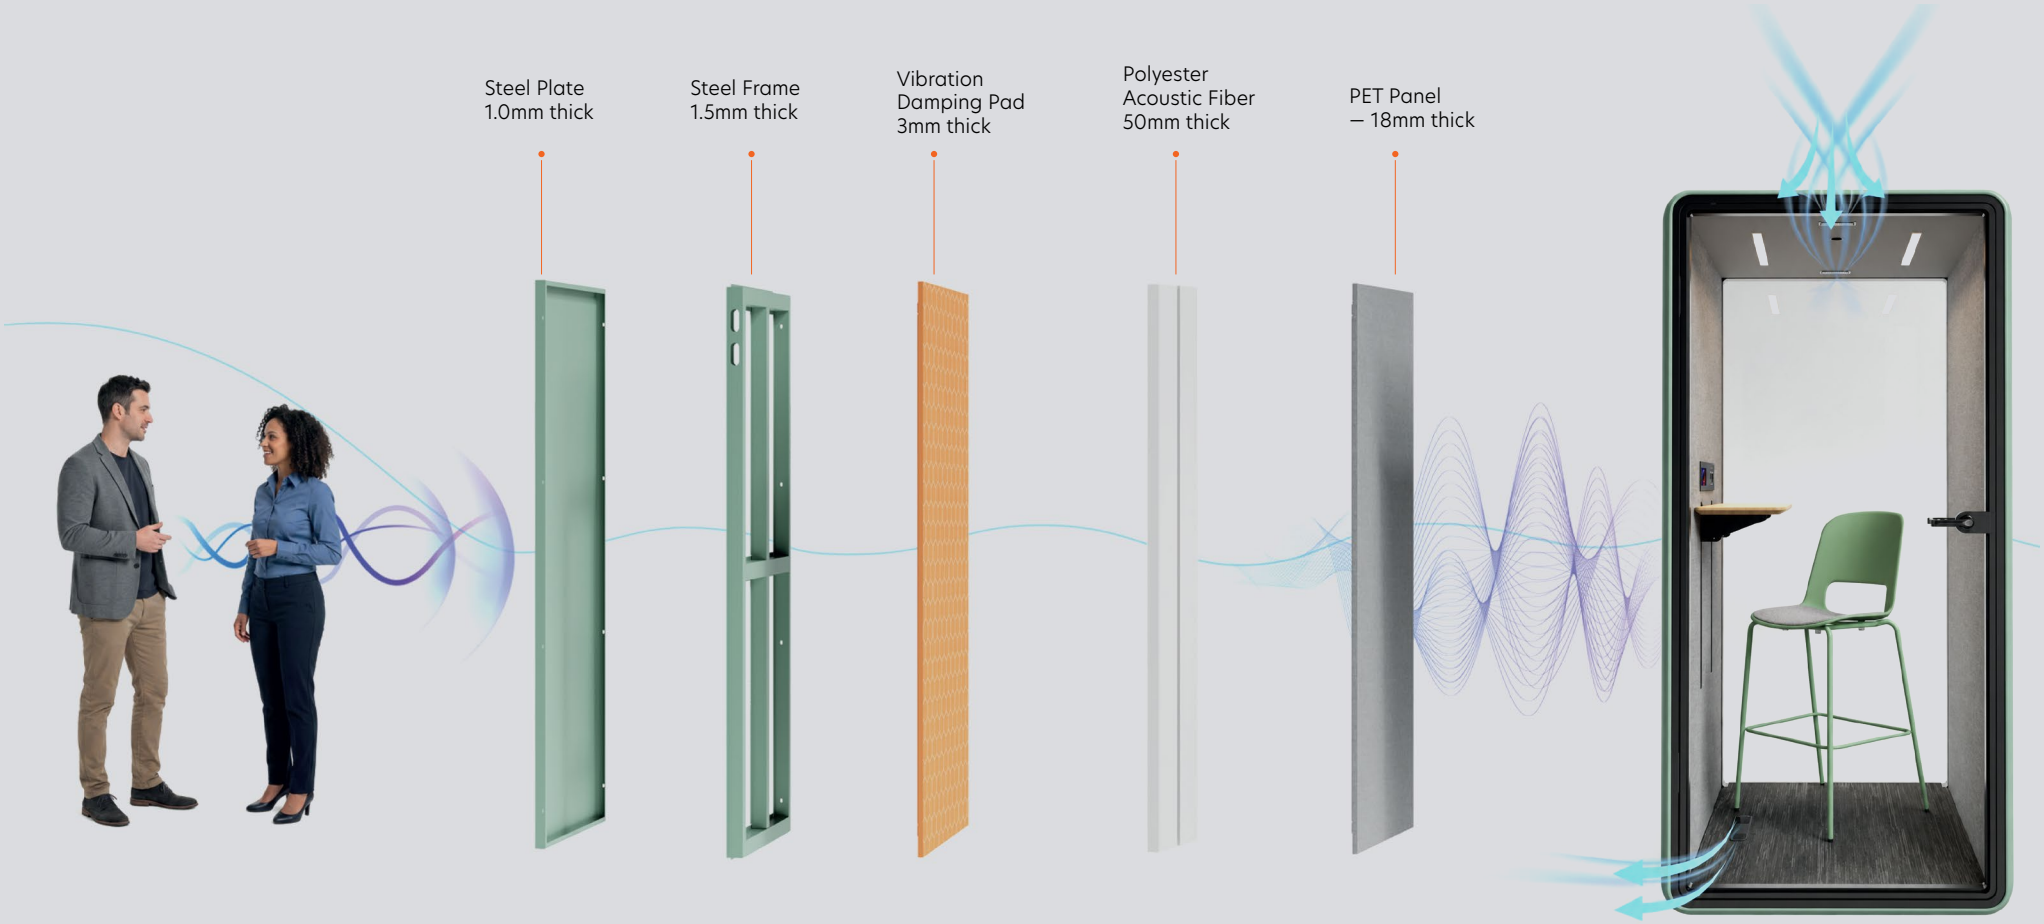

Noise Reduction.

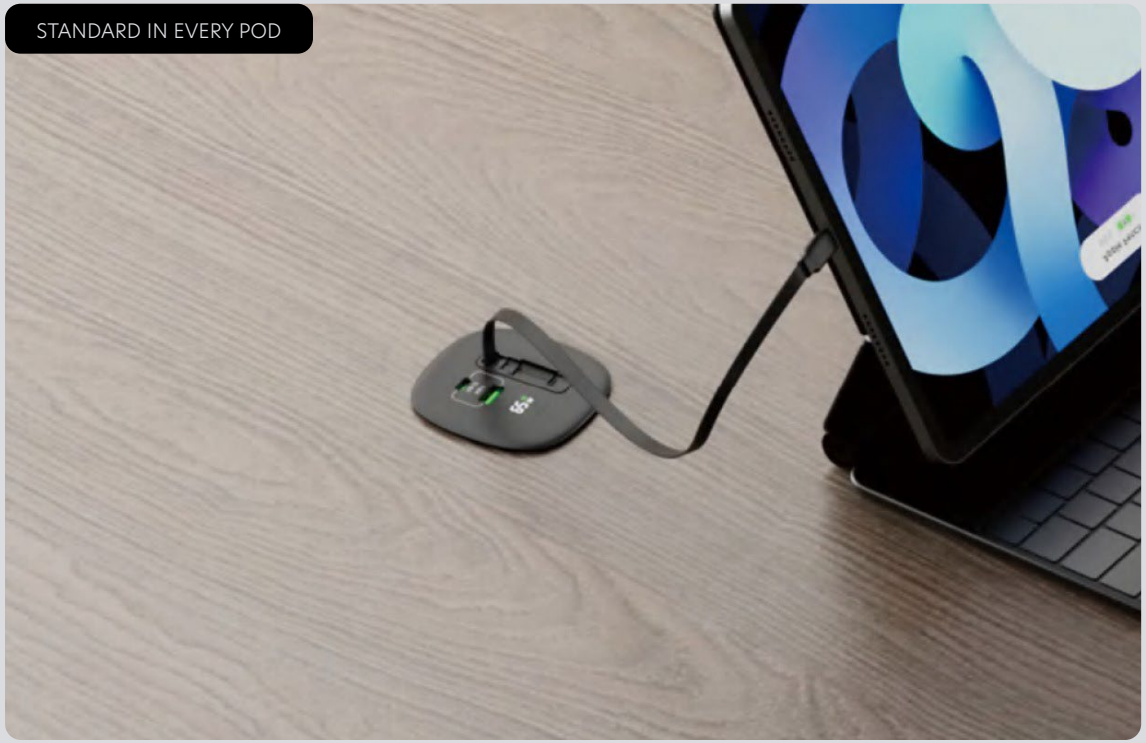

30db

Passed level reduction
Class A in ISO 23351 Certification

Dual Acoustic Logic

Block external noise, embrace inner tranquility;
Shut out outside hustle, absorb interior reverberation.

INSIDE THE POD

65W
fast charging, builtin.

Every SOLA pod comes with a desk-mounted 65W PD charging module: 1× USB-A and 2× USB-C, one on a 66 cm retractable cable that pulls out to reach a laptop or tablet and tucks away after use.

65W	1A + 2C	66 cm	Ø60 mm
PD fast charge	USB ports	Retractable cable	flush cut-out

Fan, Light &Power Controls

Standard in every pod: fan speed dial, LED dimmer and a 13A universal socket with switch.

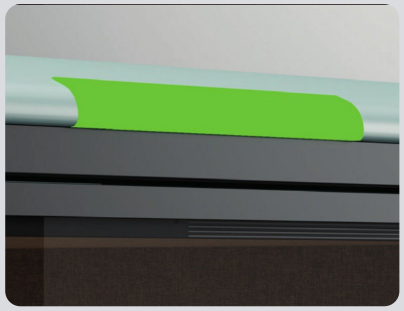

Silent Magnetic Latch

A magnetic catch closes the door softly, with no clattering metal latch. It keeps the cabin quiet and the finish clean.

LED Ceiling Light

Sensor-activated light at a neutral 4000K: even, glarefree light for calls, focus and video meetings.

Intelligent Control

A motion sensor switches the pod on when someone enters. The outside status light shows red when occupied, green when free.

SOLA

OPTIONAL UPGRADE

O^2

ENJOY NATURE, ENJOY WORK

The O Pod replicates a forest oxygen bar, isolating noise and bringing woodland serenity into the city. Surrounded by negative oxygen ions inside the pod, it relieves fatigue. Focus your mind and renew yourself amid forest light and shadow.

O^2 Oxygen Module.

Optional Upgrade

A medical-grade diffused oxygen generator mounts on the pod roof and gently enriches the cabin air. Long calls and deep-focus sessions feel fresher and less tiring.

Product data

Output pressure: 0.02–0.04 MPa
Unit size: L480 × W360 × H256 mm

Operating conditions

Ambient temperature: 5–40 °C
Relative humidity: ≤ 80% RH
Atmospheric pressure: 86–106 kPa

Available on all SOLA models.
Ask BOSQ for pricing.

Fresh (Long-Lasting)

Optional Upgrade

Odor Control in Enclosed Space

The pod has a compact area and limited ventilation. Residual odors tend to build up after continuous use by different people. The fragrance neutralizes unwanted smells and keeps the cabin fresh, preventing unpleasant odors upon entry.

Mood Adjustment for Different Scenarios

Calls / Client Reception:
Subtle aroma creates a comfortable and professional atmosphere, eases nervousness and enhances communication experience.
Focused Work: Low-irritant scents like tea fragrance soothe your mind and help improve concentration.

Enhance User Experience

The pod is essentially functional hardware. Gentle fragrance softens the cold industrial feel of metal and panels, boosting comfort for employees and clients. It serves as a premium addition to enrich the soft-touch experience.

AROMA DIFFUSER

Multisensory Tranquility Experience

Built-in aroma diffuser with three fragrance options:

TEA·
Soft and soothing,
supporting focus and deep thinking.
·MINT·
Fresh and invigorating,
helping reduce fatigue during long calls.
·SEA SALT·
Light and relaxing,
creating a calm and private atmosphere.
·CUSTOM FRAGRANCE AVAILABLE

TECHNICAL SPECIFICATIONS

Built the same, in every size.

EVERY SOLA POD	
Exterior	1.0 mm powder-coated steel sheet with automotive vibrationdamping plate
Structure	Precision steel sheet-metal frame
Acoustic layer	50 mm acoustic insulation cotton + 18 mm PET acoustic panel (2.0 kg/m²)
Noise reduction	Premium fabric-wrapped acoustic panels over flameretardant PET, as standard
Interior	Approx. 30 dB, tested to ISO 23351-1 Class A
Floor	18 mm board, 5 mm soundproof cotton, nylon carpet; levellingfeet and castors
Glass	Rear: 10 mm tempered soundproof glass. Door: 5+5 mm laminated tempered glass
Door	Black aluminium frame, stainless steel handle and hinges, selfclosin
Lighting	Sensor-activated LED, 4000K; occupancy status light
Charging	65W PD module: 1× USB-A + 2× USB-C, incl. 66 cm retractable USB-C cable
Power	100–240 V; UK, EU, US or universal sockets; 13A plug

MODEL	W × D × H (MM)	POWER	FANS	CABLE	FURNITURE
S1 Call / S1 Flex	1100 × 1100 × 2300	1 socket, USB-A, USB-C	2	1.5 m	Fixed desk + stool (Call) Height-adjustable desk (Flex)
M1 Focus / M2 Duo	1600 × 1200 × 2300	Switch, 1 socket, USB-A, USB-C	2	1.5 m	Desk + chair (Focus) Table + seating for two (Duo)
L4 Meet	2200 × 1200 × 2300	Switch, 2 sockets, USB-A, USB-C	4	3 m	Optional: sofas + table
L4 Meet+	2200 × 1600 × 2300	Switch, 2 sockets, USB-A, USB-C	4	3 m	Optional: sofas + table
XL6 Board	2200 × 2200 × 2300	Switch, 2 sockets, USB-A, USB-C	4	3 m	Optional: sofas + table

Optional Upgrade

· O_2 Oxygen module (5 L/min, 93%)
· Aroma diffuser (tea, mint, sea salt or custom)
· Custom furniture

PLANNING GUIDE

How many pods do you need?

1 focus pod

per 8–12 open-plan desks

S1 CALL · S1 FLEX · M1 FOCUS

1 meeting pod

per 20–25 people

M2 DUO · L4 MEET · L4 MEET+

1 boardroom pod

per floor or team cluster

XL6 BOARD

A starting point only. Every office is different;
BOSQ will plan the right mix for yours.

WITH**BOSQ**

From floor plan to first call.

01 Site survey

We check your floor, access routes and power, then recommend the right mix of pods.

02 Delivery &installation

Delivered and assembled on site by the BOSQ team. No construction or permanent walls.

03 Relocation

Pods move with you. We can dismantle and reinstall when your layout changes

04 After-sales support

Local service and spare parts from BOSQ in the UAE.
